**Developer Tools:** Git, GitLab, MongoDB, Vercel, Netlify, VS Code, PyCharm

**Certifications:** Internshala React Training, Mangtas Frontend Engineer Certificate

**Soft Skills:** Problem-solving, API Integration, Web Design, Responsive Design, Analytical Thinking

**Spoken Languages:** Hindi, English, Italian, German

## EXPERIENCE

### Software Developer

Dec 2024 – Present

*Zillion Analytics*

*Gurgaon*

- Developing and optimizing scalable features for the **Automate Business** platform using Next.js, TypeScript etc.
- Enhancing user experience and process efficiency through modern web solutions for MSME management.

### Software Developer

June – Nov 2024

*AiClues*

*Remote*

- Developed **Interviewsand**, a job-seeker MVP platform with intuitive navigation and animations.
- Built responsive interfaces using Tailwind CSS, GSAP, and SwiperJS for dynamic performance and accessibility.

### Frontend Developer

July – Sept. 2023

*The Nature First Supplement*

*Remote*

- Led frontend development of an e-commerce platform, boosting user engagement and satisfaction.
- Used HTML, CSS, JavaScript, and ASP.NET for a seamless experience, with Git and GitHub for version control.

### Web developer internship

June – July 2021

*The Sparks Foundation*

*Remote*

## PROJECTS

### Personal Portfolio | Javascript, CSS, React, Emailjs, Netlify, Vercel, Git

Feb. 2024 – Present

- Built a React.js portfolio to showcase projects and skills with smooth user experience.
- Boosted visitor traffic by **240%** last week via SEO, UI improvements, and Netlify deployment.
- Integrated EmailJS for contact forms and used Git for efficient version control.

### SnapCover | Nextjs, Typescript, Kinde, Shadcn, Tailwind, Prisma

Aug. 2024 – Present

- Developing SnapCover, an ongoing custom phone cover web app with Next.js, TypeScript, and Tailwind CSS.
- Enabled users to upload images for personalized phone cover designs, with secure data management via Prisma.
- Applied full-stack skills to integrate payment features and ensure smooth user experience.

### Vision Med | Nextjs, Typescript, Emailjs, Git, Vercel, Hostinger

April – June 2024

- Created Vision Med's website with **Next.js** and **TypeScript**, using optimized routing for smooth navigation.
- Deployed on Vercel, integrated EmailJS for contact forms, and configured the domain via Hostinger.

## EDUCATION

### University Institute of Engineering & Technology, Kurukshetra

Kurukshetra, HR

*Bachelor of Technology in Electronics & Communication Engineering*

*Aug. 2019 – June 2023*

## ACHIEVEMENTS

- Selected for **Smart India Hackathon (SIH 2022)**, showcasing innovative problem-solving and technical skills.
- Achieved **5 Star Badges** in **Python** and **C++** on **HackerRank**, reflecting strong programming skills.
- Contributed to **Hacktoberfest** in **2021** and **2022**, enhancing coding skills and collaborating with developers.
- Attended **Raspberry Pi** workshop, gaining hands-on hardware and software integration experience.
- Completed **10+** projects, showcasing diverse skills in web development and application design.
