Education

University Institute of Engineering and Technology, Kurukshetra University (UIET, KUK)   Jun. 2023
Bachelor of technology in Electronics and Communication Engineering   *GPA: 8.04/10*

Experience

AiClues   May 2024 - Present
Frontend Developer   *HTML, CSS, Javascript, Axios, React, Tailwind CSS, Gsap, Swiperjs*

- Spearheaded frontend development for a job matching platform, enhancing user interactions with advanced animations and seamless navigation.
- Utilized Tailwind CSS, GSAP, and SwiperJS to create dynamic, responsive interfaces similar to wellfound.
- Implemented cutting-edge frontend technologies to deliver an engaging user experience, ensuring high performance and accessibility.

The Nature First Supplement   July 2023 - Sept. 2023
Frontend Developer   *HTML, CSS, Javascript, Asp.net, Git, GitHub*

- Led frontend development of an e-commerce platform, enhancing user engagement and satisfaction.
- Used HTML, CSS, JavaScript, and ASP.NET for seamless user experience. Employed Git and GitHub for version control and collaborative development.

The Sparks Foundation Internship   May. 2021 - July 2021
GRIP Project   *Html, Hack, PHP, Git, GitHub*

- Created a banking management system with PHP, HTML, and XAMPP, enabling customers to securely perform deposits, withdrawals, transfers, and balance inquiries on a web interface.
- Managed customer accounts and transactions efficiently, ensuring data integrity and security. Utilized Git and GitHub for version control and collaborative development, adhering to best practices in software development.

Projects

Personal Portfolio   Feb. 2024
Javascript, CSS, React, Emailjs, Netlify, Git, Github

- Built a dynamic and visually appealing portfolio site using React.js, CSS, and JavaScript. The site showcases my skills, projects, and experiences in a professional manner.
- Integrated EmailJS for seamless communication in contact forms, utilized Boxicons for UI enhancement. Deployed site on Netlify for continuous integration; used Git and GitHub for version control.

React Training Project   July 2022
Movie App   *HTML, CSS, Javascript, Reactjs, Git, Github*

- Developed a feature-rich movie app using React.js, HTML, CSS, and JavaScript. The app allows users to search and discover movies and actors through custom APIs, providing detailed information and an intuitive user interface.
- Designed the UI with a focus on usability and aesthetics, ensuring a pleasant user experience. Employed Git and GitHub for source control, following best practices in software development.

Achievements

- Selected for Smart India Hackathon (SIH 2022), showcasing innovative problem-solving and technical skills.
- Earned 5 Star Badges in Python and C++ on HackerRank, demonstrating proficiency in these programming languages.
- Contributed to Hacktoberfest in 2021 and 2022, enhancing coding skills and collaborating with developers.
- Attended Raspberry Pi workshop, gaining hands-on hardware and software integration experience.

Technical Skills

Skills: Problem Solving, Api integration, Web Design, Responsive Designs.
Languages: Proficient in HTML, CSS, C++, Python, JavaScript.
Web Tech Stack: Experienced with Next.js, Material-UI, Swiperjs, Gsap, Tailwind CSS, Node.js, MongoDB.
Developer Tools: Skilled in using Git, GitHub, Netlify, Visual Studio Code (VS Code), and PyCharm.
Libraries: Knowledgeable in OpenCV and NumPy for computer vision and numerical operations, React, React Redux.
Certifications: Internshala Reactjs Training Completion Certificate, Mangtas Frontend Engineer Certificate
