SUMMARY

Software Engineer with **3+ years of experience** building scalable web and mobile applications using **React, Next.js, TypeScript, JavaScript, Node.js, and modern frontend architectures**. Experienced in leading frontend development, designing reusable component systems, integrating REST APIs, managing Git/GitHub workflows, and deploying production applications. Hands-on experience designing and documenting **frontend engineering standards, Git/GitHub best practices, and Expo + React/Next.js monorepo architecture** for web and mobile applications.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, HTML5, CSS3, C++, Python

Frontend: React, Next.js, React Native, Expo, Tailwind CSS, ShadCN, Redux, Zustand, React Query

Backend: Node.js, REST APIs, API Routes, .NET, C#, Supabase, Firebase

Architecture: Frontend Architecture, Component Systems, Monorepo Architecture, Responsive Design, API Integration

Cloud & Deployment: Vercel, Netlify, Firebase, Supabase, CI/CD, Web & Mobile Deployment

Developer Tools: Git, GitHub, GitLab, MongoDB, Prisma, VS Code

Engineering Practices: Code Reviews, Git/GitHub Workflows, Technical Documentation, Agile Development

Certifications: Internshala React Training, Mangtas Frontend Engineer Certificate

EXPERIENCE

Software Developer

Dec 2024 – Present

Zillion Analytics

Gurgaon

- Lead frontend architecture and development for production SaaS modules including **Billing, Automate Forms, and Automate Chats** using **Next.js, React, TypeScript, Tailwind CSS, Zustand, and React Query**.
- Design reusable component systems and scalable frontend architectures while integrating **REST APIs** and backend services to deliver responsive and maintainable web applications.
- Lead frontend development across a team, conduct code reviews, establish development standards, and guide implementation decisions across shared components and product features.
- Created and maintained internal documentation covering **frontend development guidelines and Git/GitHub version-control best practices** to standardize engineering workflows and improve collaboration.
- Designed and documented **Expo + React/Next.js monorepo architecture**, including project structure, shared code management, development workflows, and deployment practices for web and mobile applications.
- Collaborate with product and engineering stakeholders to translate requirements into scalable, responsive interfaces and production-ready solutions.

Software Developer Trainee

June 2024 – Nov 2024

AiClues

Remote

- Developed **Interviewsand**, a responsive job-seeker MVP platform with reusable interfaces, interactive user flows, and responsive layouts.
- Built responsive interfaces using **React, Tailwind CSS, GSAP, and SwiperJS**, focusing on usability, accessibility, and smooth user experiences.
- Collaborated with the development team to rapidly iterate on product features, translate requirements into UI implementations, and improve frontend usability.

Software Developer Intern

Sept. 2023 – May 2024

POS Solutions Pvt. Ltd.

Delhi

- Developed and maintained business applications using **React.js, JavaScript, TypeScript, and .NET**.
- Built reusable UI components and integrated **REST APIs** to support internal business workflows and data-driven applications.
- Collaborated with senior developers using **Git-based workflows and Agile development practices** to deliver and maintain application features.

PROJECTS

- SnapCover** | *Next.js, TypeScript, React, Prisma, Tailwind, ShadCN, Kinde* Aug. 2024 – Present
- Developing a full-stack customizable product platform using **Next.js and TypeScript**, implementing responsive interfaces and reusable frontend components.
 - Integrated image uploads, authentication, database operations, and API-driven workflows using **Prisma and Kinde**.
 - Designed frontend workflows for product customization and payment-related functionality with emphasis on maintainability and user experience.
- Web & Mobile Monorepo Architecture** | *Expo, React Native, Next.js, TypeScript, Monorepo, Git*
- Designed and documented a shared **monorepo architecture** for Expo/React Native mobile and Next.js web applications using reusable packages and shared TypeScript code.
 - Defined development, version-control, and deployment workflows for maintaining and releasing web and mobile applications from a unified codebase.
- Vision Med** | *Next.js, TypeScript, EmailJS, Git, Vercel* April – June 2024
- Built and deployed a responsive web application using **Next.js and TypeScript**, implementing optimized routing, API-based contact functionality, and production deployment on Vercel.
- Personal Portfolio** | *React, JavaScript, CSS, Git, Vercel, Netlify* Feb. 2024 – Present
- Built and deployed a responsive React portfolio with reusable components, SEO optimization, contact integration, and Git-based development workflows.

EDUCATION

- University Institute of Engineering & Technology, Kurukshetra** Kurukshetra, HR
- Bachelor of Technology in Electronics & Communication Engineering* Aug. 2019 – June 2023

ACHIEVEMENTS

- Selected for **Smart India Hackathon (SIH 2022)**, demonstrating collaborative problem-solving and rapid application development.
- Achieved **5-Star Badges** in **Python** and **C++** on **HackerRank**.
- Contributed to **Hacktoberfest 2021 and 2022**, collaborating on open-source development workflows.
